

RECIPIENT RIGHTS

Read and review the following North Country Community Mental Health Recipient Rights power point prior to attending the mandated Recipient Rights class. There will be a test that follows the slideshow.

Complete the test and **bring it with you** the day that you are registered to attend the class. The completed tests will be collected by the instructor at that time. It is important to understand that this is merely a preview of what is covered in class, and that per contract compliance and North Country Community Mental Health policy; you must attend, complete, and pass the actual class within 30 days of employment.

*Please be sure that you set this scheduled class time up with your supervisor as soon as possible.
